

**Table 2** High-Risk Count / Rate / Percent by Risk Class

	Preferred Plus	Preferred	Standard	Substandard	Totals
High-Risk Count a	2,110	3,750	9,660	3,790	19,310
High-Risk Rate b	4.25	5.31	7.51	10.17	6.75
Percent High-Risk c	10.93	19.42	50.03	19.63	100.00
Total Policies	49,640	70,620	128,680	37,270	286,210

- <sup>a</sup> High-Risk Count is the total number of high-risk policies in each risk class.
- <sup>b</sup> High-Risk Rate is the total number of high-risk policies in each risk class divided by the total number of policies for that risk class.
- <sup>c</sup> High-Risk Percent is the number of high-risk policies in each risk class divided by 100.

**Figure 3** Low-Risk / High-Risk Policies as a Percent of Total Policies

Percent High-Risk Policies by Risk Class

All policies are displayed on the left (100%), segmented by low-risk (blue) and high-risk policies (yellow). On the right, high-risk policies are further segmented; the pie chart represents one hundred percent of the high-risk policies segmented by risk class.
